

International courses 2025

Professional development is a journey, not a destination. Nobel Biocare is committed to helping you advance on your path to fulfilling your professional ambitions. For clinicians and dental professionals at any stage of their implantology journey, we offer progressive courses in dental education – both in-person and online – as well as industry events and on-demand resources.

Every year, over 12,000 professionals attend dental implants courses and other training through Nobel Biocare.

We invite you to explore educational opportunities from our global LEADers.

Course levels

Fundamental course

Surgical and prosthetic procedures in straightforward cases to achieve predictable esthetic and functional outcomes. Includes: implant dentistry certification programs, diagnostics and treatment planning, conventional/two-stage implant surgery.

Advanced course

More advanced surgical and prosthetic procedures, building on fundamental skills. Includes: hard and soft tissue management, Immediate Function, graftless solutions and full-arch rehabilitation.

Expert course

Challenging situations using advanced treatment planning and complex surgical and prosthetic procedures. Requires significant experience in placing implants. Includes full-arch rehabilitation with high maxillary resorption and complex grafting.

global-symposium-2025](https://nobelbiocare.com/global-symposium-2025)

Las Vegas, USA

May 30 – June 1, 2025
Bellagio Hotel & Conference Center

Pioneering the past. Leading the future.

Prepare for an experience in implantology like no other

Join us in Las Vegas to see and experience the latest advancements in implant dentistry. Gain insights into surgical, restorative, regenerative, and digital techniques from industry experts to help you improve treatments for your patients and grow your practice.

Inspiration

International industry experts present treatment options for every indication, from single tooth to complex full-arch rehabilitation.

Innovations

Discover innovative options to digitize workflows, personalize and manage complex procedures, and democratize dental care to enable you to treat more patients.

Hands-on

Join expert-led workshops for hands-on experiences and live demonstrations of tomorrow's breakthrough treatments.

Networking

Connect with global industry leaders and peers to build relationships that can help your practice and elevate your career.
