Let's celebrate!

Your professional development never stops. We are committed to helping you advance at every level. We offer cutting-edge educational courses and industry events for clinicians and dental professionals at any stage of their implantology journey. Learn alongside industry-leading experts from around the world.

Courses cover everything from diagnosis and treatment planning to surgical and prosthetic workflows. We even address some of the most complex and progressive protocols for managing potential complications.

Take control of your learning at a time and place that suits you. Our courses give you front-row access to world-class lecturers, researchers, and key opinion leaders in implant dentistry.

25 years of All-on-4® treatment concept

Speakers

Enrico Agliardi

Milan, Italy

Prof. Enrico L. Agliardi received his Doctor of Medicine and Surgery specializing in Maxillofacial Surgery and Orthognatodontics from the Università degli Studi in Milan. Since December 2009, Dr. Agliardi has served as as the Chief of the Department of Special Rehabilitation Surgery at the San Raffaele Dental Clinic, directed by Prof. Enrico Gherlone. He has many years of experience in oral, orthognathic, pre-prosthetic, pre-implant surgery, and advanced implantology with intra-oral and extra-oral implants. Dr. Agliardi is a Professor of Special Rehabilitation Surgery for the Faculty of Medicine and Surgery and Dental Hygiene program at the University Vita-Salute S. Raffaele in Milan. He supervises various national and international congresses, and he is the author and co- and several national and international publications and books.

Fabrizio Colombo

Como, Italy

The long-term therapeutic success of implant-prosthetic rehabilitation is reachable with a sufficient amount of peri-implant bone volume suitably covered with high-quality soft tissues. Clinical situations characterized by the partial or complete absence of alveolar bone may represent a limit to the insertion of endo-osseous implants.

In order to overcome these clinical difficulties, several surgical procedures have been proposed over the years. The application of GBR for horizontal and vertical augmentation is well documented, with high rates of implant success and low complication rates.

This course aims to classify the different bone atrophies and call situations, to describe the step-by-step surgical techniques for the correct management of hard and soft tissues.

Giacomo Fabbri

Cattolica, Italy

Dr. Giacomo Fabbri graduated with honors in dentistry and dental prosthodontics from the University of Pavia. He is an active member of the Italian Academy of Prosthetic Dentistry (A.I.O.P), a prestigious scientific academy in the esthetic and prosthetic dentistry field. He has published several articles in international peer-reviewed journals and lectured in Italy and internationally on topics related to fixed prosthodontics and implant prosthodontics with specific interesting esthetics, new materials, and minimally invasive approach. Dr. Fabbri's clinical practice is in Ban Mancini Fabbri Specialist Dental Practice, located in Cattolica, Italy, with expertise in the field of esthetics and prosthetic rehabilitation on natural teeth and implants.

Ana Ferro

Lisbon, Portugal

Dr. Ana Ferro graduated with a degree in Dental Medicine from the University of Lisbon. She completed her post-graduate education in Periodontology at the University of Gothenburg in 2005, and her specialization degree in Periodontics at the Faculty of Dental Medicine, University of Lisbon in 2011. She is currently pursuing a PhD in biomedical sciences at the Faculty of Medicine, University of Lisbon.

Dr. Ferro joined the MALO CLINIC team in 2005, where she practices periodontology, oral surgery, and dental implant rehabilitation. She has served as head of the Oral Surgery, Implant and Periodontology department since 2015. Dr. Ferro is interested in patient management and anxiety control and holds an Academic Certification in Conscious Sedation from Madrid Complutense University.

Dr. Ferro is an Invited Assistant for the University of Lisbon Periodontology Department and is a key speaker for the MALO CLINIC Education, Nobel Biocare. She is board member for the Foundation for Oral Rehabilitation (FOR). She lectures on Periodontology, Oral Rehabilitation, Implantology, Guided surgery and Conscious Sedation at national and international conferences and has authored and co-authored several journal scientific publications and book chapters.

Iñaki Gamborena

San Sebastian, Spain

Dr. Iñaki Gamborena received his dental degree from Universidad Odontológica Dominicana in 1989, a certificate in occlusion and temporomandibular disorders from the Mexican Association of Occlusal Reconstruction in 1990, and a certificate in restorative dentistry from the Autónoma Nuevo León University in México in 1992. He then pursued his postgraduate training in the US with a certificate in prosthodontics and a Master of Science degree in dentistry from the University of Washington in 1996, where he was awarded the Bolender contest award for clinical and academic excellence. He received a certificate in oral and craniofacial implants from the University of Texas in 1997.

Dr Gamborena has been an Affiliate Professor at the University of Washington since 2001. In 2007 he became Assistant Professor at the Department of Preventive and Restorative Sciences at the University of Pennsylvania and in 2009 was appointed Clinical Assistant Professor at the Department of Periodontics at the Medical College of Georgia. He lectures worldwide.

Dr Gamborena has been a member of the European Academy of Esthetic Dentistry since 2002 and the American Academy of Restorative Dentistry since 2011. He is a founding member of "The Ponti Group" and author of the book Evolution: Contemporary Protocols for Anterior Single Tooth Implants with Dr Markus Blatz. Dr Gamborena is also inventor of the Slim Healing and Slim Temporary Abutments, which maximize space for soft tissue growth. His private practice in San Sebastián is dedicated to esthetics, restorative dentistry, and implants.

Armando Lopes

Lisbon, Portugal

Dr. Armando Lopes graduated from the Faculty of Dental Medicine, University of Lisbon, in 2003 and joined the MALO CLINIC team in 2004. He is currently the Director of the MALO CLINIC's Education, Research & Development, and International Affairs Departments. He is also a member of the MALO CLINIC Executive Committee.

Practicing exclusively in oral surgery and dental implant rehabilitation, Armando Lopes has extensive know-how in total rehabilitation using the MALO CLINIC Protocol (All-on-4 Surgical Protocol including the zygomatic approaches) and is also an expert in Digital Surgery.

He is one of the MALO CLINIC's key Speakers and lectures regularly at international courses, conferences, and other training events featuring oral rehabilitation, implantology, and Digital Surgery.

Armando Lopes has a Master of Science degree in Clinical Dental Research (2013) and a Ph.D. (2019) from the University of Granada (Spain) and is the author and co-author of several scientific publications.

Paulo Malo

Lisbon, Portugal

Prof. Malo received his dental degree from the Faculty of Dental Medicine at the University of Lisbon in 1989. He founded the Malo Clinic in 1995 and Malo Dental in 2019. Prof. Malo developed the Malo Protocol. This included surgical techniques and innovative products such as the All-on-4® treatment concept, a new zygoma implant and protocol, the NobelSpeedy implant, and the advanced Malo Bridge technical solution. Prof. Malo is recognized worldwide by the dental and medical community as setting a new standard in fixed oral rehabilitation. He is a visiting Professor at several universities, has published numerous scientific journal articles, and is a co-author of several textbooks. Prof. Malo lectures regularly at international conferences and has received several distinctions and awards for his medical and dental breakthroughs and his management, leadership, and entrepreneurial skills.

Francesco Mintrone

Florence, Italy

Dr. Mintrone began his career as a dental technician before specializing as a ceramist in fixed denture prosthetics. He graduated with honors in dentistry from the University of Modena and Reggio Emilia, Italy, after which he furthered his education in prosthetic dentistry and implant surgery.

He has received many awards throughout his career including Winner of the Master Clinician Program in Implant Dentistry UCLA/gIDE 2009/2010, Winner of the video contest for prosthetic case studies at the Nobel Biocare Symposium 2010, and Winner of the 2011 and 2012 editions of Master Clinician in Implant Dentistry at gIDE/UCLA.

He is an active European Academy of Esthetic Dentistry (EAED) member. His articles on pre-visualization have been published internationally in specialist magazines.

He regularly lectures at national and international courses on whole-porcelain and non-invasive dental preparation techniques. He currently works out of a private practice specializing in cosmetic dentistry.

Noharet Renaud

Lyon, France

Dr. Renaud Noharet graduated with a degree in dental surgery from the Faculty of Dentistry in Lyon, France. He then completed his dental internship in Marseille and his degree as University Lecturer and Hospital Practitioner in 2010. His private practice in Lyon focuses on implantology and overall rehabilitation. He also holds various DU and CES on the subject of implantology and prostheses. Dr. Noharet is the author of numerous publications and has also co-authored several books. He lectures both nationally and internationally. He is also the founder of Sapo Implant Prothèse, ICampus, and the Société Française de Prothèse.

Alessandro Pozzi

Rome, Italy

Prof. Alessandro Pozzi, DDS, has been in practice in Rome, Italy since 1997 and is formally trained in the inter-related areas of Orthodontics, Oral surgery, and Prosthodontics. He is a Full Professor in Oral Sciences by appointment of the Italian Ministry of Education and Research and an Adjunct Associate Professor at the Goldstein Center for Aesthetics and Implant Dentistry of Augusta University, USA. He is also a Guest Lecturer in the Continuing Education in Implant Dentistry program at UCLA University, Los Angeles. A widely published researcher and scientist, Dr. Pozzi conducts clinical research on cutting-edge technologies to integrate digital workflows in clinical practice. In recognition of his research, he was awarded the 2013 Judson C. Hickey Scientific Writing Award in the Clinical Report Category. He is an active member of the Academy of Osseointegration, where he serves on the Research and the Website Education Committees, as well as an active member of the Italian Academy of Esthetic Dentistry. He is an Editorial Board Member of Clinical Implant Dentistry and Related Research and was Co-Editor of the textbook "Fundamentals of Implant Dentistry: Surgical Principles" by Quintessence Publishing, USA. Dr. Pozzi has lectured at the most prestigious congresses and academies since 2010. He leads international training courses on digital implant dentistry, dynamic navigation guided surgery, and aesthetics in his center for Oral Rehabilitation based in Rome Italy.

Liliana Silva

Aveiro, Portugal

Dr. Liliana Silva graduated with a degree in Oral Surgery from the Oporto University School of Dentistry in Portugal. She specializes in regenerative implant dentistry and has published numerous articles on oral surgery, oral pathology, and guided bone regeneration. She has received several merit awards including the winning case at the Osteology Case Session in the category Horizontal and Vertical Ridge Augmentation, presented at the International Osteology Symposium Barcelona 2019. Dr. Silva is President and Founding Member of ARTA, the Association of Ridge and Tissue Augmentation, and is a Board Member of the Portuguese Oral Surgery Society. She is currently in practice at the LF Clinic in São João da Madeira, Portugal.

Tristan Staas

Utrecht, The Netherlands

Dr. Tristan Staas graduated from the University of Utrecht in the Netherlands in 1988. Together with his wife who is also a dentist, they founded Staas and Bergmans Zorgvooruwmond in 1990, a practice for general dentistry and a clinic for esthetic dentistry and implantology in 's-Hertogenbosch. In 2012 they founded a second office, Staas and Bergmans Expertisevooruwmond, a partnership clinic consisting of various dental specialists working as a team treating patients needing complex therapy. Dr. Staas has focused his practice and teaching interests on immediate implant placement in the esthetic zone and collaborates with other clinicians working together in their practices in the Netherlands. He provides instruction to colleagues on immediate replacements, esthetic solutions, and the use of NobelActive implants, and is performing research on these procedures and long-term outcomes.

Giorgio Tabanella

Rome, Italy

Dr. Giorgio Tabanella is a Diplomate of the American Board of Periodontology, Active Member of the Italian Academy of Esthetic Dentistry and author of the book "Retreatment of failures in dental medicine". He graduated from the University of Southern California-Los Angeles-USA where he obtained the Certificate in Periodontics as well as the Master of Science in Craniofacial Biology. He was awarded "Outstanding Periodontal Researcher in Surgery and Implantology" by the California Society of Periodontists for his study on bone remodelling. He is the Scientific Coordinator of the International Implant Conference, Director of O.R.E.C. Oral Reconstruction and Education Center (www.tabanellaorec.com), and reviewer and author of original articles published in peer-reviewed journals. Dr. Tabanella lectures internationally on implant and periodontal surgery, esthetic management in dental implant and periodontal therapy, peri-implant bone remodelling, soft and hard tissue reconstruction around natural teeth and implants as well as the re-treatment of failures. His research focuses on tissue regeneration and augmentation with different bone and soft graft materials, peri-implant and dental bone loss, novel protocols for the repair of ailing dental implants. He maintains a private practice in Rome, Italy where he also holds advanced courses and live surgeries on tissue regeneration and re-treatment of implant failures.

Course levels

Courses led by our Key Experts around Europe

Course levels

 Fundamental course	Surgical and prosthetic procedures in straightforward cases to achieve predictable esthetic and functional outcomes. Includes: implant dentistry certification programs, diagnostics and treatment planning, conventional/two-stage implant surgery.
 Advanced course	More advanced surgical and prosthetic procedures, building on fundamental skills. Includes: hard and soft tissue management, Immediate Function, graftless solutions and full-arch rehabilitation.
 Expert course	Challenging situations using advanced treatment planning and complex surgical and prosthetic procedures. Requires significant experience in placing implants. Includes full-arch rehabilitation with high maxillary resorption and complex grafting.
